

# Track Employee time and attendance with the touch of a finger

Macro Punch Station is a state-of-the-art biometric system that uses Biometric finger print technology to instantly identify employee's attendance and eliminate costly buddy punching. Designed for easy monitoring of employee time in and time out Macro Punch Station time and attendance system automatically calculates total worked hours including overtime. Employees punch in and out at the terminal with the touch of a finger with a image display of employee and instant feedback of their status.

Macro Punch Station connects to the computer through a plug-n-play USB cable that also provides power to the unit

Macro Punch Station connects to the computer through a plug-n-play USB cable that also provides power to the unit.

Employees simply touch the biometric sensor to check in and out. No more paper attendance and time sheets.

Complete check on the attendance system. The Macro Punch Station - Biometric Attendance System uses a biometric sensor that stores the employee's Finger image, which is connected directly to your computer and interacted with software, which automatically calculates number of worked hours, including overtime and keeping track of individual employees. The Macro Punch Station generates the various reports to track all the details.

## Accessories

Macro Punch Station is the Perfect Solution for any office environment

Biometric Attendance System

“Macro Infotech Private Limited”

## Silent Features

- ❖ Attendance Reports
- ❖ Employee Absentee
- ❖ Employee Attendance
- ❖ Employee Monthly Activity
- ❖ Employee Non-Work
- ❖ Missing Punch
- ❖ Employee List Reports
- ❖ Employee Emergency Contact
- ❖ Employee Information
- ❖ Employee Pay Rate
- ❖ Employee Personal
- ❖ Touch Station Information
- ❖ Employee Schedules
- ❖ Weekly Schedules
- ❖ Year Schedules
- ❖ Administrator Reports
- ❖ Fingerprint Enrollment
- ❖ Access Profile Report
- ❖ User Setup Report

Biometric is the statistical analysis of biological observations and phenomena. We use biometric device that recognizes each employee's hand and records his or her time / attendance data to produce an accurate payroll in significantly less time than ever before.

## System Features

- ▲ One touch operation instantly identifies employees fingerprint Option One-to-One Match and One-To-Many
